## 936 Gate Operator Aux1/ Aux3 Input Programming

1. Press 936 front panel button labeled “Option”.
2. Press 936 down arrow to navigate to “P1” (or “P2”).
3. Press “OK”
4. Press 936 up arrow or 936 down arrow, then “OK” to set P1 to option “0”, “1”, or “2”:
  - Option “0” is the **step-by-step** setting for the input.
  - Option “1” is the **Safety** setting for the input.
  - Option “2” is the **Entrapment** setting for the input.
5. Repeat step 4 above for the “P2” option (AUX3 input).
6. Default settings for “P1” and “P2” is “0” (step-by-step setting).
